Hi Jannie,

I got the Nafion BP1 and BP2 from Chemours. They synthesized them and shared them with me and a colleague in R4 (Scott Sivertsen). As far as I know they are not commercially available.

As far as fish tissue analysis I am attaching 4 SOPs. Three are for sample prep and 1 for analysis. This is where I will be starting when I get to it as well. The all revolve around a basic methanol digest of the tissue homogenate followed by SPE on a WAX cartridge which we also use for water. Let me know if you have any questions.

Mark

Subject: A few questions

Good morning Mark.

I hope the New year finds you well. I have a few questions that I hope you can help me with concerning PFAS analysis. I was told that the EPA was able to obtain a standard for Nafion by-products 1 and 2. Is this correct? If so, please provide me with the information for purchasing them.

Ex. 6 Personal Privacy (PP)

Thanks so much for all your help.

Jannie
